BEST REMEMBRANCE 1966: Football games and the fun of Bisonettes; friendships there.

ADVANTAGE OF SUNSET EDUCATION: ? It wasn't until graduate school that I really cared about learning. Until then my concern was GRADES!

SUMMARIZE LAST 20 YEARS: After Sunset, I spent 4 years studying music at SMU. There I met and married Roger, my "prince charming". After graduating, Roger's job moved us to Houston and we lived there for 10 years. I taught piano and then began commuting to Huntsville to graduate school. I received my degree but then I retired from the music profession when our first daughter was born. About this time my father died, and after an internal struggle, I accepted Jesus Christ. I had always acted "good" but for all the wrong reasons. This has added an exciting and challenging dimension to my life as I walk with Him and learn new things each day. Between 1980 and 1982 we made 3 major moves but finally landed in San Antonio where we hope to stay. I am still a RETIRED piano teacher and I take a special pleasure in nurturing our family and reaching out to other people.

WORST REMEMBRANCE 1966: Trying to finish my senior theme on time

ADVANTAGE OF SUNSET EDUCATION: "Back then" Sunset was known for its high quality academically. Graduating from Sunset meant that you had received a good education from an outstanding faculty. Since I still live in the Sunset district, I also feel a part of the area - my roots are here.

SUMMARIZE LAST 20 YEARS: The morning after graduation, I enrolled at the Univ. of Dallas. I graduated in 3 years, spending the 2nd year at Laval in Quebec City, Que, Canada. I finished requirements for a teaching certificate after graduation and started teaching French

at Hillcrest High in Jan 1970. In Sept. of 1971 I was transferred to South Oak Cliff where I taught history for 3 years and then French for 4 years. I met Rik while taking ice skating lessons. He had been a competetive figure skater and helped me take ice dancing tests. We were married and I "retired" from teaching to start a family. I started teaching French again in the DISD in Feb. 1986. Our whole family is active in the Dallas Figure Skating Club. We also enjoy camping. I have won ribbons at the State Fair of Texas for counted cross stitch which is one of my hobbies. We enjoy going to Lake Tahoe where we have just purchased a house. We regularly attend the opera and the symphony.

JERRY RAY GILMORE

To the Committee and Classmates of Sunset High School:

I'm writing this to let everyone know that Jerry Ray Gilmore has passed on. He died January 24, 1986. I'm his wife. We were married August 28, 1982. When he died we were married for 3 years and 5 months.

Jerry wanted to come to his class reunion this year. I would like to come so I could meet some of his classmates. But now that Jerry is not here I can't afford it. I'm not working, so I don't have any money to do anything now. I'm living with my parents right now. I wish that I could get one of the Fact Books. If you want more information about Jerry, let me know. You can call me or write me. My phone number is 1-704-369-8227. My address is 178 Brendle Road, Franklin, N.C. 28734. My name is Carol Gilmore.

Yours truly,

COLLEGE(S): BS, FS, Baylor; did work toward PhD at UT Austin

TRAVEL: Europe 1968, all over US, Canada, Bermuda on business

FANTASIES - 1966: To meet someone who made a G on a report card (remember, DISD had a grade worse than failing, a kind of "rub it in" grade)

FANTASIES - 1986: Retire by age 45

BEST SPOT FOR PARKING: Mrs. Simpson's slot, until the 5th period calculus class relocated her

WORST RULE: All those marching band rules that tried to make you feel like you were a military group.

BEST HANGOUT: Inky's on Jefferson

BEST COMBO: Sunset Stage Band, of course

BEST EXTRA-CURRICULAR ACTIVITY: Band

BEST SOCIAL EVENT: "Bye, Bye Birdie" production in 1964; I still think back on that as outstanding for a high school production.

BEST REMEMBRANCE 1966: Undoubtedly, surprising everyone, including myself, and winning city number sense title as a sophomore in 1964

WORST REMEMBRANCE 1966: The basketball player slipping on a piece of ice and costing us the game and the championship.

ADVANTAGE OF SUNSET EDUCATION: The main advantage was the availability of accelerated and honors classes which allowed me to have a head start in math especially. These programs are not available in smaller schools, and, however primitive it may have been, the calculus studied at Sunset proved invaluable in first year physics.

SUMMARIZE LAST 20 YEARS: I was in Waco from 1966-1973 going to Baylor (working for Post Office in Dallas in summer), getting married, and teaching school (physics, math, and 8th grade band) for 2 years waiting on Cathey to finish Baylor. We moved to Austin in 1973 and I did more graduate work at UT until 1975, while Cathey taught Special Ed. at a psychiatric hospital here. I worked for the Texas Education Agency from 1975-1978 as a systems analyst and programmer in charge of systems handling school finance/payments and vocational education program enrollments. I have been in business for myself (with a partner) as DIGATEX Commercial Data Processing Systems, Inc. since 1978. We sell Texas Instruments and IBM mini computer systems to soft drink plants and I am the software manager and guru. My wife retired from teaching in 1981 and we had our first child, Jessica, in June 1984. I still play golf and go to Baylor football games, and do my best to mix a lot of fun with the extensive travel involved in the sales and support of our product. We have 3 cocker spaniels and are active in the local cocker club.

Throughout all of this, I have grown very close to the American Indian culture, and it is in this that I have my social roots and religious philosophy.

WORST REMEMBRANCE 1966: It was the election of some honor society, and Mr. Cochran blackballed me and Mr. Griffin sold out to the politics of it. Cochran had given me a "G" for a report I failed to bring to class the day after I was absent.

LOUANN HARLOW

ADVANTAGE OF SUNSET EDUCATION: The conservatism of the school and Eula Pearl Smith's English class (as well as Mrs. Stokes). There was some very poor counseling, and I was not directed to such courses as chemistry, biology, and other sciences that would be much needed in college, thus my later interest in English. Typing is also an advantage except when one is 180 miles away from a repair shop.

SUMMARIZE LAST 20 YEARS: It's been dramatic, a lot of change, death, and rebirths. After living in the Rockies in Boulder for eight years, my sons left for Punohou and junior high school, and I came here to the Appalacia of the Southwest. I'm living in enriched poverty without phone or TV, in liason with an old adobe house to restore and a bee-intoned pear tree for company. It really has been wave after wave to surf in this suffering and joyous world. I send blessings to all the alumni. Namaste. Summarily, on the desert hillside here, the sun sets.

Second Five Years: Spent working and wondering why I ever majored in Sociology/Social Welfare; got married; learned that I had an aptitude for accounting (despite the fact that previously, my idea of reconciling a bank statement was having my brother, the CPA, reconcile it every two or three years); went to night school and CPA review courses; learned that my father had Alzheimer's Disease.

Third Five Years: Passed the CPA Exam; worked and worked and worked; went to five funerals, including my dad's; decided there was more to life than work; left public accounting to work for Pizza Inn; got pregnant - had miscarriage.

The Last Five Years: Promoted to Vice President, had a baby; got a divorce; juggled career, motherhood and dating and charged $7,000 to various credit cards for single person wardrobe.

The Next Five Years: Hope to finish paying off credit cards (much to my husband's relief); to continue the joy of rearing my son; to have another baby; to enjoy my career (I really don't want to be Lee Iacocoa!); to keep my sense of humor; to quit smoking; to attend a 25 year high school reunion.

SUMMARIZE LAST 20 YEARS: Probably 10 of the last 20 years of my life have been spent in classrooms, libraries, labs, hospitals, clinics, and standing in front of Xerox machines copying articles and papers. All that was part of becoming a clinical psychologist. Once I was one, I went to work at John Peter Smith Hospital in the Dept. of Family Medicine and Psychiatry. Next I spent 5½ years as Chief Psychologist at Terrell State Hospital, and since 1981 have been in private practice in Dallas. I like what I do. It is always interesting to hear someone's story, and believe me, people's lives are truly more unique than either science or fiction.

In the rest of the time - the other 10 years - I have filled in the details of my own story. Every year I do something I have always wanted to do. I have listened to a lot of music (and made some myself), I have read a lot of Yeats & Vonnegut, I have traveled, skiied, and danced at every opportunity, and I have enjoyed the company of some very dear people along the way. The dearest among them is my husband, John Deleray. Marrying him in 1981 was one of my very best decisions: he has a wonderful heart, an old soul, a terrific mind, and he is quite a handsome devil. We have great times together.

At times in the past 20 years life has been more real than I might have preferred; nevertheless, I am still an idealist, a liberal, and a romantic.

SUMMARIZE LAST 20 YEARS: Change. After 10 years of boredom in Aerospace Engineering I "went through the canopy" and began studies in psychology. I have done my master's work at U.T. Arlington and doctoral work at the U.T. Health Science Center at Dallas. I currently work in Psychology Research at the Dallas V.A. Medical Center. Along the way I have expanded my artistic side through continued work in vocal, handbell, and keyboard music, as well as painting and drawing. In 1980 I joined the Dallas Symphony Chorus where I sing first tenor. Last summer we were the featured chorus at the Bach Tri-centennial festivals in Vienna, where we sang at St.

Stephans (yes, I toured Freud's home) and at St. Thomas Kirche in Leipzig, DDR, where Bach was choir-master and is buried. Other performances were at Salzburg, Austria and Ingolstadt, FDR. Last spring also brought the most momentous change thus far: the birth of my son, John Robert, III ("Rob" to avoid confusion). A busy 20 years - past and ahead.

I have been a single parent now for over 8 years and have discovered that I can accomplish more than I ever thought I could. And I can do it alone if it has to be that way. It has really been my growth period - the last 20 years.

SUMMARIZE LAST 20 YEARS: The first five of the last 20 years were spent in education at the Univ. of Texas. 1971 was probably the most significant of all years. I married Janet McWilliams, graduated, began work at Johnson & Johnson, and moved to Sherman, Texas.

We stayed in Sherman for 10 years while I worked my way thru different positions at J&J. The majority of our time was spent between shiftwork, having/raising kids, and spending time on Lake Texhoma.

In 1982 we moved to J&J's headquarters in N.J. where I went into marketing. We found New Jersey to be surprisingly beautiful and have loved it since day one. We look forward to our future, wherever it is.

TRAVEL: England, Germany, Greece, Hawaiian Islands, Mexico, Colorado, New Mexico, Louisiana, Georgia, North Carolina, Oklahoma, Arizona, etc. Lived in Los Angeles, Calif. for a year.

FANTASIES - 1966: To be an interior decorator. Have lots of money. Have three children.

FANTASIES - 1986: Not to repeat the same fantasies that I had in 1966. Hopefully I have more sense.

BEST CAR: Any that would get you to where you were going.

WORST COURSE: Toss up between Latin and shorthand.

WORST RULE: Not allowed to wear slacks or jeans to school. (girls)

BEST HANGOUT: Austin's Barbecue

BEST SOCIAL EVENT: All the Senior graduation events--but especially Senior Day.

BEST REMEMBRANCE 1966: TACKY DAY--no other school was allowed to have one--streets being blocked off--hair in rollers--crazy outfits--I remember having to ride that bicycle all the way from soneone's house to school.

WORST REMEMBRANCE 1966: Maybe not the worst but the sadest--Graduation Day--having to say good-bye to everyone.

ADVANTAGE OF SUNSET EDUCATION: I always felt Sunset was special. I would have been very disappointed if I had had to go to another high school, even though most of my friends did. There was just something about going to a school that had been around for so long. You had traditions to uphold that other schools did not.

SUMMARIZE LAST 20 YEARS: I went to Texas Tech for 3½ years. Quit college and got married. Gave birth to a darling baby girl. It's surprising how the teen years can change the word darling into insufferable. Spent the next several years in and around the Dallas area. The most enjoyable year was the year we lived in California. I remember jogging along the beach, roller skating in the park, and playing all kinds of recreational sports. We even had a TV show segment filmed outside our apartment. That was the year we traveled so much. We were then transferred to Midland. These last 6½ years have been the most fulfilling. I've finally found a job that not only suits me to a T, but it is very challenging. I love the people I work with. Midland is an unusual city to say the least. I've seen a bank close its doors and people panic--running around with money stuffed in shoe boxes, suitcases, and even coat pockets. I've seen rumors from the Wall Street Journal cause banks to fly in millions of dollars in case of a rush on the bank and have a plane standing by in case more was needed. I've learned alot of things from living in Midland, but most of all how to accept change and make the best of it.

I have been involved in working with Abused, Neglected, and Exploited Children and Adults providing counseling and social services to alleviate the problems associated with that behavior. This has required providing counseling on such subjects as "Alcohol and Drug Abuse"; "Suicide Prevention"; "Stress Management"; "Biofeedback Training"; "Coping Skills"; "Family Communication Skills and Networks"; "Personalities and Families in Legal Conflict"; "Health Maintenance"; "Grief and Loss" - associated with death; "Eating Disorders"; "Alzheimer's Disease"; "Social Aspects of Aging"; "Client Advocacy in a Social Work Setting"; "Diabetes and Other Health Related Problems of the Young and Old"; and various Psychological, Social, and Therapeutic counseling techniques. After school in Galveston, I lived for 15 years in Austin. I met my current husband while he was an EE student at UT. He is an officer in the Air Force which is why I am now in San Antonio. Currently, I am spending my time as an x-ray technologist, reading R. Ludlum, C. Potok, J. Auel, chairing committees at my Luthern church (not born again...never died), and most importantly waiting for husband, Rick, to return from Russia where he is doing some work for the State Dept. Between us we have 4 beautiful children, though none of our own...we bought a Maine Coon Cat "BUBBA" instead...so much for Zero Pop. Growth. I have seen none of you in the past 10 or 20 years, but I would love to hear from you if you're ever in San Antonio. I look forward to July with great anticipation. I am enjoying my life now and anyone who says it's over by 40 isn't doing it right. My goal I hope to attain at the end of my life is hopefully to be able to say...I regret doing that... instead of...I wish I had tried doing that.

BEST EXTRA-CURRICULAR ACTIVITY: Bisonettes (once a Buffalo girl, always a Buffalo girl)

BEST SOCIAL EVENT: Tacky Day, Senior Activities

BEST REMEMBRANCE 1966: I was lucky to have a number of close friends at Sunset and even though we have gone our separate ways over the past 20 years, I remember, happily, the fun we used to have together.

WORST REMEMBRANCE 1966: How terribly ill my father was throughout my high school days. Jim Parker's death from a car accident.

ADVANTAGE OF SUNSET EDUCATION: It seemed that there was no "status" pressure as such when we were going to Sunset. We led fairly well-rounded lives and I feel that upbringing has helped me in my "older" years.

SUMMARIZE LAST 20 YEARS: Oh Boy! Married my senior year in college - divorced 10 years later. Lost my two year old son, Jason, tragically to cancer in 1972. Have worked in the industrial supply market to garment manufacturers for the past 16-18 years and have advanced well within the industry. Have been living for the past 5-6 years with a wonderful man named Jim Lucas. We travel frequently, enjoy each other, and have a very happy life.

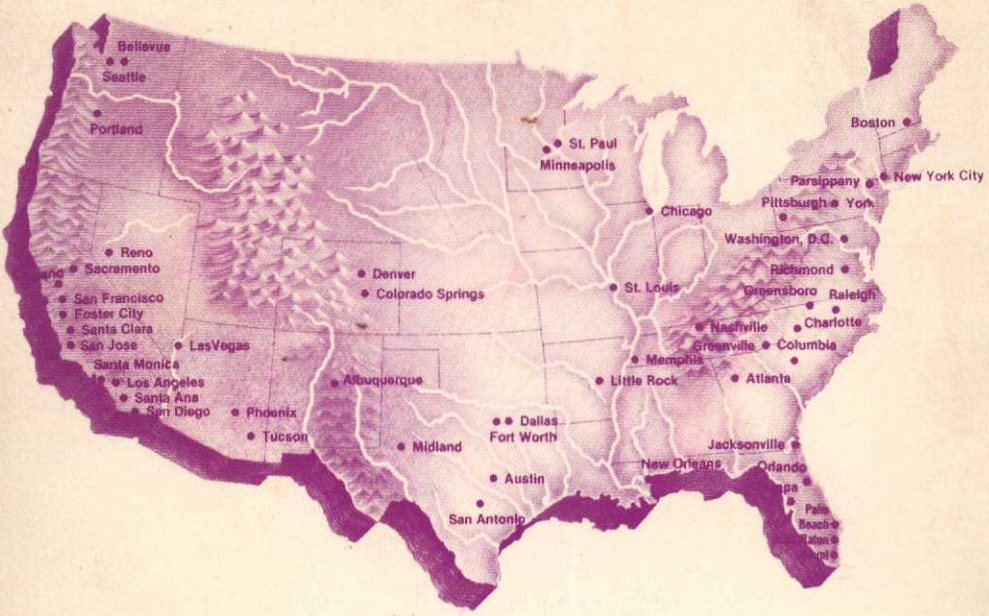
Coast to coast in 20 years.



Lincoln Property Company. Developing new standards in real estate all across America.

We're Lincoln Property Company. And for two decades we've developed over $7.5 billion worth of real estate in cities all across America. Yet we haven't made a lot of noise about it, because we feel that our products speak quite well for themselves. And for us.

We've built our reputation in luxury offices, hotels, apartments, retail centers and industrial developments on one aspect. Quality. That means no short cuts in planning, in materials, and in talent. So that's why in each of our markets our local partners are the best people, dedicated to the highest standard of quality. In design. In construction. In maintenance.

To be sure, you can develop real estate without so much care. Without so much fuss. But then again, why build something unless you're going to build the best? That's the attitude that has taken us from San Francisco Bay to Tampa Bay - from Dallas to Denver - from Minneapolis to Miami - in just twenty years. That's the attitude that has made Lincoln Property Company one of the largest developers in America today.
